PROFILE

Henrik Lindhjem holds a Ph.D. in environmental and natural resource economics from the Norwegian University of Life Sciences and Master degrees from the Universities of Cambridge (Environment and Development) and Oslo (Economics). He has 14 years experience in the analysis of instruments for environmental and climate policy and natural resource management, economic valuation of environmental- and health costs, cost-benefit-, risk- and safeguard- analysis and impact assessments at different levels. Recently, Henrik has particularly worked on benefit transfer methodologies, valuation of biodiversity and ecosystem services, reduced emissions from deforestation and forest degradation (REDD), and economic instruments in biodiversity conservation. Henrik combines policy analysis, capacity building and consulting with academic research, and has more than 10 peer-review papers in international journals. He has a strong background in the use of survey instruments and in quantitative, statistical analysis.

In-country work experience: Belgium, Cameroon, China (2002-2010), Costa Rica, Denmark, England (resident 1998/9, 2006), Finland, France, Ghana, Guatemala, Indonesia (resident 1999), the Netherlands, Poland (2007-2009), Portugal, Romania, South Africa, Sweden, Tanzania (resident 1996/1997), Uganda (resident 2001/02), USA (resident 2005), Vietnam and Zambia. He is currently heading and participating in several projects in the area of environmental valuation and policy instrument design funded by among others the Norwegian Research Council, Nordic Council of Ministers, Norwegian Ministry of Environment, OECD, NORAD and the EU.

ACADEMIC QUALIFICATIONS

2005-2009 Ph.D., Economics, Department of Economics & Resource Management, Norwegian University of Life Sciences. Achieved part-time.

Title of thesis: "*Methodological issues in meta-analysis, benefit transfer and environmental valuation*".

2005 (autumn) Ph.D. courses, University of California, Berkeley (Grade: A)

Behavioural economics, environmental & natural resource economics

1998-1999 Master of Philosophy, Environment and Development, Department of Geography, University of Cambridge, UK (Grade: First)

Climate policy, biodiversity/ecosystem valuation & management, ecotourism,

CV Henrik Lindhjem

1993-1998 Master of Economics, University of Oslo, Norway (Grade: First)
Micro, environmental & natural resource, development, econometrics

WORK EXPERIENCE

2010- Researcher (Forsker I), Norwegian Institute for Nature Research (NINA), Oslo
2010- Partner, Vista Analyse, Oslo
1999-2009 Economist & Senior economist, Econ Pöyry (formerly ECON Analysis), Oslo.
Part-time 2/2005- 9/2008.
2005-2008 Ph.D. Scholar, Department of Economics & Resource Management, Norwegian
University of Life Sciences. Supervised by Prof. Ståle Navrud.
2008-2011 Consultant for the Environment Directorate of the OECD.
2001 – 2007 Various assignments as consultant for the World Bank.
2005 Visiting Researcher, Dep. of Agricultural & Resource Economics, University of
California, Berkeley. 7/2005-12/2005. Invited by Professor Anthony C. Fisher.
1998-99 British Chevening Research Scholar, University of Cambridge
1998-00 Teacher, tutor & external examiner, Dep. of Economics, University of Oslo
1993-94 Military service as Corporal at NATO headquarters

LANGUAGES

Norwegian Mother tongue
English Fluent

RESEARCH & POLICY ANALYSIS PROJECTS (1999-2011)¹

Environmental valuation, cost-benefit analysis & risk analysis

2011- **Economist, Social benefits of rural broadband investments.**
Client: Ministry of Local Government and Regional Development.

2011- **Environmental economist, Cost benefit analysis of Austevoll fishery harbour.**
Client: the Norwegian Coastal Administration.

2011- **Project leader, How to handle impacts on marine ecosystem services in
economic analysis.** *Client: the Norwegian Coastal Administration.*

2011 **Environmental economist, Valuation of ecosystem services.**
Client: Norwegian Petroleum Directorate.

2011 **Environmental economist, VALUESHED - Valuation of Ecosystem Services
from Nordic Watersheds.** *Client: Nordic Council of Ministers.*

2011- **Environmental economist, BESAFE - Biodiversity and ecosystem services:
arguments for our future environment.** *Client: EU 7th Framework Programme.*

2010-11 **Environmental economist, Operationalising the concept of ecosystem services
in Norwegian natural resource management policy.** Internal NINA project. *Client:
Norwegian Research Council.*

¹ Internal role for in project for the institution I represented, indicated. See www.lindhjem.info for full text of policy analysis reports & other publications.

- 2010 **Environmental economist, Cost-benefit analysis of petroleum development in the Baltic Sea and Lofoten.** Responsible for valuation of marine ecosystem services and risks related to oil spills and other impacts. NINA, Vista and other partners. *Client: Interdepartmental group headed by the Norwegian Ministry of Environment.*
- 2010 **Project leader, What are the needs for publicly provided postal services?** Valuation public goods aspects of options for reforming the universal service obligation related to postal services in Norway. Vista with Econ Pöyry (lead). *Client: Norwegian Post and Telecommunications Authority.*
- 2009- 2010 **Project leader, Policy Implications of Meta-analysis of VSL Estimates,** Estimation of value of statistical life estimates for use in CBA, *Client: OECD*
- 2009- 2010 **Project leader, Controlling benthic release of phosphorus in different Baltic Sea scales,** 3 year research project with several Nordic institutions. Contributions through valuation of water quality improvements through benefit transfer and a hedonic pricing study. Involved as adviser from January 2010. *Client: Swedish Environmental Protection Agency*
- 2008- 2010 **Project leader, Valuation of environment-related health impacts for children,** Co-authoring two report chapters, general editing and referee work. *Client: OECD*
- 2008- 2010 **Project leader, Forests as a Public Good: Valuing Social and Environmental Benefits of Forests in Poland to improve Effectiveness of Management (POLFOREX).** With Warsaw University, Norwegian University of Life Sciences and Warsaw Forest Research Institute. 3-year research project. *Client: European Economic Area Financial Mechanism*
- 2008- 2009 **Project leader, Valuing lives saved from environmental, transport and health policies: A meta-analysis of stated preference studies.** With Norwegian University of Life Sciences (Ståle Navrud). *Client: OECD*
- 2008- 2010 **Environmental economist, European database of environmental valuation studies.** Member of expert group assembling a Europe-wide database of non-timber forest benefit (and other) valuation studies. *Client: EU Cost E45.*
- 2006- 2009 **Environmental economist, Capacity building for reducing mercury pollution in China.** Estimating costs and benefits of mercury abatement in the poor province of Guizhou, conducting courses in cost-benefit analysis etc. *Client: NORAD/Chinese SEPA.*
- 2008- 2009 **Project leader, Cost-benefit analysis of water pollution abatement in the oil sector,** *Client: Norwegian Oil Directorate*
- 2008- 2009 **Project leader, Research seminar on the benefits of efficient multi-functional forest policy.** Organised February 2009 with Warsaw University. Proceedings published. *Client: Polish-Norwegian Research Fund.*
- 2008- 2009 **Environmental economist, Review of benefit transfer studies in the forest context.** Research paper with A. Bartczak and A. Stenger. *Client: INRA, France*
- 2006- 2008 **Project leader, Non-timber forest goods and local economic development: An untapped potential?** Research project estimating supply and demand for non-timber forest goods in Norway using contingent valuation surveys. Mechanisms to pay forest owners for environmental services. *Client: Norwegian Research Council.*

- 2007- 2008 **Project leader, Willingness to Pay for biodiversity in Asia: benefit transfer and meta-analysis.** Research project with Tuan. H. Tran, Hue College of Economics, Vietnam. *Client: Environment and Economy Programme for Southeast Asia*
- 2003- 2008 **Environmental economist, Chinese Environmental Cost Model.** Model estimating province level and national environmental and health costs of air and water pollution in China. Part of an international expert group consisting of Econ Pöyry, CICERO and Resources for the Future. *Client: World Bank, Chinese SEPA*
- 2005 **Environmental economist, International experiences with environmental accounting.** Input into the Chinese efforts to record environmental and natural resource impacts in monetary terms in their green national accounts for SEPA. *Client: The World Bank.*
- 2002- 2005 **Environmental economist, Guidelines for economic evaluation in EIA in China.** Developed guidelines for economic evaluation of environmental impacts of construction and other projects related to air, water and land to be used in project level EIA. ECON Report 42/05. *Client: NORAD*
- 2002 **Environmental economist, A comparison of life cycle analysis and CBA.** Research paper with Østfoldforskning. ECON Report 8/02. *Client: Norwegian Research Council.*
- 2001 **Environmental economist, Natural disaster prevention in Norway.** Cost benefit considerations of measures to reduce risk. ECON report 95/01 (In Norwegian). *Client: The Government Fund for Natural Damages.*
- 2001 **Environmental economist, Risk and Discount Rates in Public Transport Projects.** Analysis of risk-adjusted discount rates for use in CBA. ECON Report 93/01. *Client: Ministry of Transport and Communications.*
- 2001 **Environmental economist, Environmental costs, systematic risk and energy investment priorities.** ECON Working Paper (co-authored with E. Bowitz). *Client: Norwegian Research Council*
- 2001 **Environmental economist, Risk & discount rate for environmental investments.** Assessment of whether public investments in a better environment should be discounted in social cost-benefit analysis at a lower rate as other public investments. ECON report 8/01 (In Norwegian). *Client: Ministry of Environment*
- 2000-01 **Environmental economist, CBA of treatment options for milk carton waste.** A research paper comparing the social costs of recycling, incineration or landfilling milk carton waste in Norway. *Client: Norwegian Research Council*
- 2000 **Environmental economist, Municipality Costs of recycled paper treatment.** A report on the costs of collecting and treating recycled paper in a selected number of Norwegian Municipalities. ECON Report (In Norwegian). *Client: Rekom*
- 2000 **Environmental economist, Environmental costs of waste treatment.** Environmental costs of emitting or discharging harmful substances from waste treatment to the environment. ECON Report 85/00 (In Norwegian). *Client: Ministry of Environment*
- 1999 **Environmental economist, Costs and benefits of air pollution mitigation in the city of Guangzhou, China.** A chapter of ECON report 9/00. *Client: NORAD*

1998 **Environmental economist, Willingness to pay for improved water quality.** Six months research project for MSc Degree on the willingness to pay for an improved water quality in Lake Steinsfjorden among the populations of Ringerike and Hole municipalities and other recreational users.

Environmental and natural resource policy & regulation

- 2011 **Environmental economist, Can markets protect biodiversity? A review of** different financial mechanisms, Contribution through a review of conservation auctions and harmful subsidies. With Noragric. *Client: NORAD*
- 2011 **Quality control, Survey of attitudes to Norwegian policy on carnivores,** Large internet panel survey of attitudes. *Client: The Norwegian Directorate for Nature Management.*
- 2010 **Project leader. Potential effects of carnivore proof fencing for recreation and** wild deer. Brief analysis of potential impacts of fencing farm animals to reduce loss to predators such as wolf and lynx *Client: Norwegian Directorate for Nature Management*
- 2010-2013 **Norwegian case study leader. POLICYMIX: Assessing the role of economic** instruments in policy mixes for biodiversity conservation and ecosystem services provision. Large research project involving Latin American and European partners. NINA is coordinating institution. *Client: EU*
- 2009- 2010 **Project leader. Scaling up voices for influencing post 2012 climate change** regime: Shaping pro-poor REDD options. Analysis of benefit sharing mechanisms in forest conservation and management internationally and in three developing countries. *Client: International Union for the Conservation of Nature (IUCN)*
- 2008- 2009 **Project leader, Payment for and management of ecosystem services** Overview of the status of methods and instruments for valuing and paying for ecosystem services. With IUCN. *Client: Nordic Council of Ministers*
- 2008- 2009 **Project leader, Use of economic instruments in Nordic environmental policy** 2006-2009. Overview of economic instruments and analysis of areas of “double regulation”. *Client: Nordic Council of Ministers*
- 2008- 2009 **Environmental economist, Managing biological diversity in Nordic forests** Project on efficient instruments for biodiversity conservation in private forests. With Norw. Univ. of Life Sciences & Southern Swedish Forest Research Centre. *Client: Expert group on environmental studies, Swedish Ministry of Finance.*
- 2006- 2009 **Environmental economist, Ecosystem functions in forests.** Research project combining natural and social sciences as a basis for better management of biodiversity. Work incl. survey of forest owners’ attitudes and willingness to accept compensation for providing forests for biodiversity conservation. With Norw. Uni. of Life Sciences. *Client: Norwegian Research Council and Småforsk.*
- 2008- 2009 **Project leader, Climate mitigation strategy support to South Africa.** Assessment of areas where Norway can contribute to long-term institutional capacity building. *Client: Ministry of Environment*

- 2003- 2007 **Policy analyst, Climate policy in China.** Research network exploring the options for Chinese climate policies in the 2nd commitment period. Various workshops, drafting of research and policy papers. *Client: Ministry of Foreign Affairs*
- 2004 **Environmental economist, Managing protected areas in China for** biodiversity and poverty alleviation. Expert advice to the PA Task Force of the China Council. Exploring linkages between protected areas and poverty alleviation, designing innovative incentive mechanisms for conservation, and development of sustainable tourism. With IUCN and others. *Client: China Council*
- 2004 **Environmental Economist, Evaluation of green taxes.** Review of methodologies and studies evaluating efficiency and effectiveness of green taxation. ECON Report 2004-123. (In Norwegian) *Client: Ministry of Environment.*
- 2003-2005 **Policy analyst and ag. Project leader, Climate change capacity building** program, South Africa. Cooperation and capacity building program in the area of climate change. Processes to compile emission inventory, deal with vulnerability and adaptation etc. *Client: Department of Environmental Affairs and Tourism/NORAD*
- 2004 **Project leader, Climate Policies and industry competition.** Analysis of the impacts of climate policies on industry competitiveness. With CICERO (In Norwegian). *Client: Ministry of Environment.*
- 2003 **Project leader, Marine protected area management & financing options in** Tanzania. Analysis of social, environmental and economic dimensions of MPAs. Focus on sustainable financing of MPA management from environmentally sensible tourism development and linkages to poverty alleviation in Zanzibar. *Client: The World Bank*
- 2001 **Environmental economist, Evaluation of green energy taxation.** Assessment of whether the current taxes on heating oil and electricity contribute to reducing emissions at the lowest cost, and whether alternative instrument designs can be more cost effective. ECON report 69/01 (in Norwegian). *Client: Norwegian Petroleum Institute*
- 2001 **Environmental economist, Sustainable development in the electric utility** industry. Development of sustainable development principles, strategies and activities applicable for private companies, illustrated with case studies from international electric utilities. ECON report 61/01. *Client: World Business Council for Sustainable Development*
- 2000 **Policy analyst, Baseline for a prompt start of the CDM. Phases I & II.** An assessment of the UNFCCC signatories' submissions on baseline estimation under the CDM, discussed at COP 6. *Client: Norwegian. Ministry of Environment.*
- 2000 **Environmental economist, Status and options for baseline calculations under** the CDM. ECON Report 17/00. *Client: Norwegian Ministry of Environment.*
- 2000 **Policy analyst, Issues and options in technology transfer under the UNFCCC.** ECON report 53/00. *Client: Norwegian Ministry of Foreign Affairs*

Environmental and social assessments, safeguard analysis

- 2007 **Policy analyst, Strategic environmental assessment of the Great Western Development Strategy, China.** Revision and editing of final report. *Client: The World Bank*
- 2004 **Quality control, Environmental impacts of tourism development in Honduras.** Project assisting the government of Honduras and the World Bank in developing a socially and environmentally sustainable tourism strategy for the country's North Coast and Copán Valley. *Client: The World Bank*
- 2002-2003 **Project leader, Environmental and social assessment scoping report for the proposed** minihydro station and distribution networks in South West Uganda. Leader of an international 7 people team carrying out an EIA according to World Bank safeguards of a proposed mini-hydro station and distribution networks near the UN Natural Heritage Site, Mountain Gorilla sanctuary and biodiversity hotspot *Bwindi Impenetrable Forest*. ECON Report 105/03. *Client: NORAD*
- 2001-2003 **Resident project coordinator and EIA specialist, West Nile Rural Electrification Concession, Uganda.** 8 months as Kampala-resident project coordinator, transaction advisor and EIA specialist in the privatisation of an isolated grid system. *Client: Electricity Regulatory Authority, Uganda & NORAD.*
- 2002 **Environmental economist, Environmental impact assessment of the Nyagak** mini-hydro station in Arua according to World Bank safeguards, North Western Uganda. ECON Report. *Client: NORAD.*
- 2002 **Environmental economist, Environmental impact assessment of the Olewa** mini-hydro station according to World Bank safeguards, North Western Uganda. ECON report. *Client: NORAD.*
- 2002 **Environmental economist, Environmental impact assessment of the Bondo-Nebbi** electricity transmission line according to World Bank safeguards, North Western Uganda. ECON report. *Client: NORAD.*
- 2001-2002 **Environmental economist, Strategic environmental assessment of transport service trade liberalisation under GATS (In Norwegian).** ECON report 92/02 (In Norwegian). *Client: Ministry of Trade and Commerce.*
- 2001 **Policy analyst, Strategic environmental assessment in World Bank operations:** Experience to date – Future potential. Issues paper published in the World Bank Environmental Strategy Paper series. *Client: The World Bank*
- 2001 **Policy analyst, Environmental Quality Assurance for the World Bank,** Assessment of whether a structural adjustment loan to Ecuador and an emergency flood protection loan to Mozambique adhered to World Bank environmental policy. *Client: The World Bank*
- Miscellaneous environment & development*
- 2002-2003 **Project coordinator, Evaluation of Norwegian development aid** administration. Evaluation and review of the Norwegian development assistance organisation model and channels of assistance. Field visit to Zambia. Proposals for organisational and strategic change. *Client: Ministry of Foreign Affairs.*
- 2004 **Environmental economist, Evaluation of proposals for environmental projects** in China. Four proposals to the Italian Ministry for the Environment's Trust Fund. *Client: The World Bank*

- 2004 **Quality control, Circular economy: An Interpretation.** A research note discussing how the concept of Circular economy relates to familiar environmental problems and how it may be tailored into constructive objects of analysis. *Client: The World Bank*
- 2000 **Environmental economist, Historical trends in energy use and efficiency in the Nordic countries.** Input to debate about Factor 4 and 10. *Client: Nordic Council of Ministers*
- 2000 **Environmental economist, The Performance of Resource Rich Countries,** A study of the performance of developing countries with abundant natural resources. Data analyses of the performance, as measured by the human development index and other indicators of oil rich developing countries. *Client: Norwegian Research Council*
- 1999 **Environmental economist, Transport growth and economic growth.** A report on the experiences from delinking economic growth and transport growth in the Netherlands and lessons for Norway ECON Note 78/99 (In Norwegian). *Client: Ministry of Environment*
- 1999 **Research scientist, Development & conservation in Indonesia.** Two months field research project for MPhil degree on the potential for eco-tourism improving livelihoods for coastal populations and conserving coral reef habitats in the Marine National Park of Wakatobi in South Sulawesi, Indonesia. With UK-based NGO Operation Wallacea (www.opwall.com). Funded by UK & Norw. research trusts.
- 1996 **Research assistant, Coral reef conservation in Mtwara, Tanzania.** Three months marine expedition to the Mtwara Region of Tanzania conducting pioneering baseline surveys of the coral reefs, mangrove habitats, and socio-economic status for the Tanzanian government to establish a marine national park (established in 2000 as Mnazi Bay – Ruvuma Estuary Marine Park). With the UK-based NGO *Frontier*. (www.frontier.ac.uk)
